Testimonial

A.Mohamed Ali
Managing Director
South India Shelters Pvt. Ltd.

Our interaction with M/S. HanKook Elevator & Materials has always been a very productive and enriching experience till date with many thought provoking discussions. They have displayed excellent team work and have consistently offered us varied options covering the entire spectrum of the budget right from their designer options to the most cost effective ones. The products offered were found to be of International standards and Quality with a wealth of experience and knowledge of HanKook that backs their offerings. We wish them all the very best for an unmitigated success in the Indian Market!

Kim HyounGoo
Managing Director (Sr. Architect)
HTI Engineering Pvt. Ltd.

M/S. HanKook Elevator & Materials was professional, efficient, and the price was reasonable and was as quoted. They went the extra mile for the sake of customer satisfaction. We were treated respectfully, honestly, and they checked with us to make sure everything was up to par. A+ grade for us! In particular, we would like to thank the Service team for their immediate and responsible commitment. They did a wonderful job. We will not hesitate to work with HanKook Elevator again in the near future! We would certainly recommend HanKook Elevator to anyone. We wish them all the best for their business in Asia!!

STT HANKOOK launched RE team in 2016 for providing cost effective Engineering Solution in solar photovoltaic projects in collaboration with Top Sun Korea.

With global strong industry relationships and a thorough understanding of solar policy, technology, project management and financing facilitation, STT HANKOOK aims to maximize clients' return on investments(ROI) and accelerate project execution. STT HANKOOK provides intelligence, project management, business consulting and strategic planning service to their global joint partners to serve professionally to several large Indian and international clients.

Going forward, STT HANKOOK plans to be a key solar power solutions provider to commercial and industrial establishments. Their tailor-made solutions for the rooftop solar space are aimed at reducing power costs while helping organizations adopt clean energy.

2.5 Supply & Procurement - (1/4)

Part 2. Major Biz

Principal business consists of “**Trading, Supply and Procurement**” of service items for our clients in the energy sectors such as oil, gas, petroleum, renewable industries, Building and Housing Projects

Supply and Procurement of Equipment & Materials

Petrochemical & Oil Refining

- Materials & Equipment for petrochemical Repairs and Conversions

Industrial Plant

- Steel Pipe
- Line pipes
- Flanges, Gaskets
- Rig Materials
- Pumps, E&I
- Steel structure

Building & Housing

- Metal materials
- MEP materials
- Civil materials
- Structural materials

Consumable Material

- Welding Materials
- Building Materials
- Chemicals
- Water proofing
- Painting

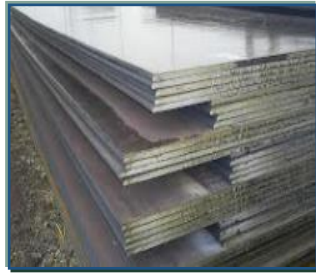

2.5 Supply & Procurement - (2/4)

Part 2. Major Biz

Procures and Supplies materials, machineries, E&I and etc. related to the project
